## WAYS TO EARN EXTRA DOLLARS

Spring brings a sellers' market . . . In a short period of time you have Easter, Mother's Day and Decoration Day, on top of which there is a brisk bedding plant trade that results from homes being planted for the summer.

The smart thing to do is to make the most of this situation while it lasts. Early planning for the bedding plant trade will help you earn EXTRA DOLLARS. Try a few of the recommendations below:

- 1** Sterilize soil for pots and flats to save weeding costs.
- 2** Try using Tom Thumb Flats containing a dozen plants. Sold as a unit these flats speed up sales and also sell more plants.
- 3** Label plants, giving their name, color, height and price. Save answering time-consuming questions.
- 4** Prepare your shrubbery, roses and perennials in February and plant them in heavy tar paper pots. Don't lose one customer while you spend time digging for another.
- 5** Plan to display stock so that customers are encouraged to pick things out for themselves. Your supermarket calls this "impulse buying."

## COVER MAN 1955

Alfred G. Bolton, cut flower grower for John Albrecht Nurseries, Narbert, Pennsylvania, is one of the fine gentlemen of the old school, and we consider it an honor to salute him as our cover man for 1955. Born in Philadelphia in 1884, he worked on the farm where he was raised in Delaware County until he was eighteen years old. Then began his career in floriculture. For three years he was employed by H. H. Battles, of Newtown Square, one of the leading florists of the day, and then for fifteen years he was employed on the estate of H. S. Hooper, also of Newtown Square. He left the florist business during the first world war but returned to it in 1932 when he began to work for his present employer. Mr. Bolton's pleasant smile, genial personality and wealth of cultural know-how, have given him an esteemed place in the hearts of all the florists who know him.

### BUSINESS TERMS:

**ON OPEN ACCOUNT:** (Flower Seeds Only). For Customers of Approved Credit 60 Days Net. The following discounts will be allowed on orders paid within 10 days: \$5.00 to \$50.00 2% — \$50.00 to \$100.00 5% — \$100.00 or over 8%.

**CASH OR C.O.D. ORDERS:** (Flower Seeds Only). Under \$5.00 net — \$5.00 to \$25.00 5% — \$25.00 or over 8%.

Prices in this catalog are subject to change without notice. . . . All goods are offered subject to Crop Failures, Shortages or other causes beyond our control, and to being unsold on receipt of order. . . . The prices in this catalog are for the trade only. For your own protection do not loan this catalog to anyone not entitled to Florist or Wholesale prices. . . . Unknown correspondents desiring to open an account are requested to furnish three trade references with whom they have had credit relations.

**WARRANTY AND LIMITATION OF LIABILITY:** Subject to the limitation of liability herein set forth, we warrant that the seeds or bulbs sold are as described on the container, within recognized tolerances. Our liability on this warranty is limited in amount to the purchase price of the seeds or bulbs. In no event shall we be liable for the crop, or for any loss due to the failure, impairment or quality thereof or varietal variance therein, whether such loss results from breach of the foregoing warranty, from breach of any other provision of the buyer's contract for purchase of said seeds or bulbs, or from any other cause.

*Gloeckner*

seeds, bulbs, plants and cuttings are selected with diligent care as to type, productivity and freedom from disease so that you may have the best with which to build your prospective crops. Our interest in you and your crops by no means ends with the sale. We are more than anxious to have the materials we sell, grow and prove profitable to you.

# GIVE THESE RECENT INTRODUCTIONS A TRIAL... YOU'LL LIKE THEM

## **PETUNIAS "REDSKIN"**

These new F1 hybrid multiflora petunias were developed as companions to Comanche. Your bedding plant customers will like them and come back for more. They have the same general habit as Comanche and are just as vigorous and free flowering. They differ only in color.

**APACHE**—Bright rose-red

**SIOUX**—Medium salmon

**PALEFACE**—Pure white

### **Prices:**

Tr. Pkt. **\$1.75**; 1/64 oz. **\$6.50**; 1/32 oz. **\$11.70**

## **YODER BROS. SNAPDRAGONS**

These hybrid Snapdragons were developed especially for florists and are noted for their long tapering spikes. They are well adapted to single-stem culture and for a pinched crop. Don't overlook them. Complete descriptions will be found on page 4.

## *Gloeckner* **SPECIAL STRAIN VERBENAS**

Here is a dwarf Verbena adapted for growing in 2¼ and 3-inch pots. Each year its popularity grows and we are glad to be able to offer it again in 1955. Be sure and try it. See page 27 for description and prices.

## **MARIGOLD BROWNIE**

This is an outstanding dwarf French single Marigold that your bedding plant customers will go for in a big way. Its blooms of contrasting hues of russet red and golden yellow measure 2 inches across. The fact that these wonderful flowers are produced on plants that do not exceed 1 foot in height makes Marigold Brownie adaptable for any garden use.

**Prices:** Tr. Pkt. **\$ .50**      Oz. **\$4.50**

## **PETUNIA PRIMA DONNA**

The large fringed flowers of this bright rose-pink Petunia make it sell on sight. They measure up to 4 inches in diameter. An F1 hybrid grandiflora type, the growth habit is vigorous and the plants are uniformly dwarf, compact and spreading. They may be used in pots on a terrace, in a mixed flower border or for bedding. A bedding plant display is not complete without them.

**Prices:** Tr. Pkt. **\$2.50**      1/64 oz. **\$8.00**  
1/32 oz. **\$15.50**

• Gilbert's Yellow .....	2.00
• Gold Mine—Deep golden yellow .....	3.00
• Gold Rush—Early golden yellow .....	3.50
• Junglewood Yellow—Rich yellow .....	2.00
• Patricia—Yellow .....	3.50
• Seabiscuit—Yellow .....	3.50
• Schlegel's Early Yellow .....	1.50
• War Admiral—Yellow. Just follows Day Star.....	3.50

• Indicates Hybrid Varieties

Sow July 5 to 15 for early winter-flowering pinched crop. Single-stem crop for early winter, sow August 5 to 15. High temperature inhibits germination and one must, therefore, select a cool location for the flats in summer. However, for fall and winter sowing, germinate in 60 to 65 degree temperature.

Precautions should be taken to avoid damping-off. Sterilize soil with steam or other efficient measures, and after the seed germinates, good air circulation and very little watering will help to prevent this trouble.

## ANTIRRHINUM

### SNAPDRAGONS

#### VARIETIES FOR GREENHOUSE CULTURE (CONTINUED FROM PAGE 3)

## YODER BROS. HYBRIDS

\$3.50 Per Packet (2000 Seeds)

• 1955 INTRODUCTIONS

### WHITE

**Jet Pilot**—A medium early paper white, long spikes.

- **White Knight**—Improved paper white. Medium to long compact spikes with well-placed florets; growth firmer and less grassy than Snowman and flowering is earlier.

### IVORY

**Apollo**—Larger and more vigorous than Margaret.

**Citation**—Earlier than Margaret, Apollo or Twenty Grand. Very large ruffled floret.

**Twenty Grand**—A medium early winter variety.

### ROSE PINK

**Crusader**—Color and season that of Dorcas Jane.

**Gusto**—Somewhat deeper than Mary Ellen. Earlier, and more uniform in flowering.

**Pompey**—Nearly same or little deeper than Dorcas Jane. Earlier, more vigor than Dorcas Jane.

- **Rowenna**—Light rose pink with medium to long spikes. Florets are semi-erect and adhere closely to the stem which makes the variety very adaptable for bunching.

**Star Charter**—A wide floret similar to that of Christina; vigorous uniform growth; close spacing of florets.

- **Wintergreen**—Light rose pink of very fine quality. Unusually compact spikes with uniformly placed florets. Stiff wiry growth with complete lack of grassiness.

### LIGHT PINK

- **Rosebud**—Soft pastel pink with long spikes and giant-sized florets. Wing petals are slightly ruffled. Color holds well through April. Displays real hybrid vigor. Strong stems and marked uniformity.

**Top Flight**—Earlier than Christina. Greater vigor. Partially shatterproof.

**Whirlaway**—Medium early; large floret; close spacing; long spike; a little deeper color than Mary Ellen.

### DARK PINK

**Pensive**—A little later than Christmas Cheer.

- **Prestige**—Lustrous dark pink; a new color in Yoder snap hybrids. Full spikes of better than average quality flowers in this color class.

**Pink Star**—Early. Dark pink with light salmon overcast.

### YELLOW

- **Broker's Tip**—Deep yellow with medium-sized florets. Little or no side growth. Flowers after Seabiscuit and because of its excellent color-holding quality and its vigorous stocky growth it is well adapted for continuing its flowering later into the spring.

**Day Star**—Very early; good uniformity; long spike; flower a little small.

**Seabiscuit**—Follows War Admiral and Day Star.

**War Admiral**—Just follows Day Star. Closer spacing and somewhat larger florets.

These improved hybrid snapdragons are the result of intensive hybridization. They are stiff stemmed and produce long tapering spikes. There is a minimum amount of side shoots which makes them well adapted to single-stem culture as well as for a pinched crop.

### LAVENDER

**Bold Venture**—Rich lavender or bright, light magenta.

### BRONZE

**Cavalcade**—A lively golden bronze; extremely vigorous; long spikes; outstanding keeper.

**Gallant Fox**—Deep orange bronze.

**Sun Briar**—Lively orange bronze.

### RED

- **Commando**—A good pleasing red plus earliness, clean growth habit, marked vigor and uniformity add up to a fine novelty.

#### VARIETAL GROUPING—FLOWERING SEQUENCE

For purposes of setting up a program for succession of flowering the grouping given here will indicate the relative sequence in which the varieties will tend to be in full flower.

	A	B	C
<b>WHITE</b>	Jet Pilot	White Knight	
<b>IVORY</b>		Apollo Citation	Twenty Grand
<b>PINK</b>	Gusto Star Charter Rowenna Wintergreen	Crusader Pompey Whirlaway	Rosebud Topflight
<b>DARK PINK</b>		Pensive Pink Star Prestige	
<b>YELLOW</b>	Day Star	War Admiral Seabiscuit	Broker's Tip
<b>LAVENDER</b>	Bold Venture		
<b>GOLD BRONZE</b>	Commando	Cavalcade	Gallant Fox
<b>DARK BRONZE</b>		Sun Briar

<b>Prices Above:</b>	<b>\$ .40</b>	<b>\$ .65</b>	<b>\$2.00</b>

### FLORIST STRAIN (Wilt Resistant)

Used by large commercial specialists in Asters because they have fully double flowers and lack half-single kinds with large open heads.

- Azure Ball**—Fully double light blue.
- Pink Ball**—(Ball Shell Pink)—Large 3½ to 4-inch double flowers on long stems. Rarely shows any center. Blooms mid-August. Excellent flowered under lights in early spring. Needs little disbudding as laterals are few.
- Rose Ball**—(Ball Rose)—Fully double flowers of a good rich rose. Flowers large and solid.
- White Ball**—(Ball White)—The large pure white flowers of this new Aster are exceptionally double and borne on stiff stems. Blooms late August.
- Prices Above:** Tr. Pkt. **\$1.75** ¼ oz. **\$3.20** 1 oz. **\$9.60**

### VARIOUS RESISTANT VARIETIES

	Tr. Pkt.	¼ oz.	Oz.
<b>Ball White Early</b> —Royal—White crested center, branching 2 to 2½ feet. Late August .....	<b>\$ .40</b>	<b>\$ .65</b>	<b>\$2.00</b>

### CONTINUOUS FLOWERING OF ASTERS

Sow Seeds	Pot Seedlings	Bench Plants	Flowering Date Approximate
<b>Dec. 20</b>	<b>Jan. 10</b>	<b>March 1</b>	<b>May</b>
<b>Feb. 1</b>	<b>Feb. 20</b>	<b>April 1</b>	<b>June</b>
<b>March 15</b>	<b>April 10</b>	<b>May 15</b>	<b>July</b>
<b>April 20</b>	<b>May 10</b>	<b>June 15</b>	<b>August</b>
<b>May 20</b>	<b>June 10</b>	<b>July 15</b>	<b>September</b>
<b>June 10</b>	<b>July 1</b>	<b>Aug. 15</b>	<b>October</b>
<b>June 20</b>	<b>July 15</b>	<b>Aug. 20</b>	<b>November</b>
<b>July 10</b>	<b>Aug. 1</b>	<b>Sept. 1</b>	<b>December</b>
<b>July 15</b>	<b>Aug. 10</b>	<b>Sept. 15</b>	<b>January</b>
<b>August 15</b>	<b>Sept. 10</b>	<b>Nov. 1</b>	<b>February</b>
<b>Sept. 10</b>	<b>Oct. 1</b>	<b>Dec. 1</b>	<b>March</b>
<b>Oct. 20</b>	<b>Nov. 15</b>	<b>Jan. 1</b>	<b>April</b>

Plants must be given additional light between September 1 and May 1 regardless if they are in seed flats or in the bench. If the plants are not lighted while in small pots, they develop a rosette of leaves and growth of the stem and flowers is delayed. Plants should be lighted until the first flowers show color.

Low wattage bulbs will suffice for additional light. On a four-foot bench, 40-watt lamps spaced 6 feet apart and about 24 inches above the plants will give ample light for this crop.

### ADDITIONAL LIGHTING SCHEDULE

- 3 hours during the months of September, October, March and April.
- 4 hours during the months of November and February.
- 5 hours during the months of December and January.

**Speciosa Major**—Violet-blue-flowers 1½ inches across, are carried on 10 to 12-inch stems. Standard pot variety.

Tr. Pkt.	1/16 oz.	1/8 oz.	1/4 oz.
\$1.00	\$2.25	\$4.00	\$7.50

Fibrous Begonias are a necessity item for spring bedding sales. They are used extensively in combination work and are also popular house plants throughout the year.

Production from seed is simple. January sowing produces plants for spring bedding work. The fine seed is lightly pressed into a sterilized fibrous medium. The seed is kept moist, not covered, and germinates best at 60 to 70 degrees. An economical method has been to shift the seedlings to flats spaced 2 x 2 inches and grow them on until they become crowded. Then transfer to 3- or 4-inch pots.

Potting soil should contain one part peat, one part sand and one part soil—a fibrous medium that will not pack is essential. To keep the plants moving, a temperature of 60 degrees is best. The plants do well in shade or full sun, but are best shaded during the summer.

Try monthly sowings from August to March for a constant supply to meet your customer's demand.

**DWARF CLASS**

	Tr. Pkt.	1/64 oz.	1/32 oz.

### CALCEOLARIA

#### GILBERT'S STRAINS

This is an improvement over the original Multiflora Nana type. Compact habit of growth; good selection of colors in the mixture; excellent foliage.

#### AVAILABLE PACKETS ONLY

	Tr. Pkt.
Multiflora Nana Red .....	\$1.50
Multiflora Nana Yellow .....	1.50
Multiflora Nana Mixed .....	1.50
<b>Triumph Strain (Grandiflora)</b> — Large flowered strain, the best in its class .....	1.00

#### REGULAR STRAIN

	Tr. Pkt.	1/64 oz.	1/32 oz.
<b>Multiflora Nana Mixed</b> — Dwarf growth with large compact heads of medium sized flowers. This fine strain contains a good range of colors .....	\$1.25	\$5.00	\$9.00

The soil used in germinating the seeds should be made up of two parts leaf mold, two parts well-rotted manure, two parts soil, and one part sand. Sterilize the soil and flat with steam to eradicate all disease.

Sow the seeds lightly over the surface and cover the flat with a suitable covering. Calceolaria will germinate better when the temperature is cool, therefore, well-shaded locations are better. August sowing will make large plants for May, while November sowing will make good 4-inch plants. Some growers have used the wick irrigation method to germinate the seed with very good results.

### CALLIOPSIS DWARF

This annual is very free flowering and recommended for bedding. If continued flowering is wanted old flowers must be removed.

	Tr. Pkt.	Oz.
<b>Golden Wave</b> — Golden yellow with red zone .....	\$ .20	\$ .60
<b>Dwarf Varieties Mixed</b> .....	.20	.60

### CARNATION (ENFANT DE NICE)

One of the best annual Carnations. Plants are strong, robust growers bearing flowers 2½ to 3 inches in diameter on good stiff stems. Do not expect over 75% to come true to color or better than 90% double flowers.

<b>White</b>	<b>Spectrum Red</b> —
<b>Salmon</b>	Intense scarlet
<b>Rose</b>	<b>Yellow</b>
<b>Red</b>	<b>Mixed</b>

	Tr. Pkt.	1/8 oz.
Prices Above:	\$ .50	\$2.25

### CENTAUREA

#### CYANUS (Bachelor Button)

Listed below are the finest improved Florist strains of Centaurea cyanus. The flowers are large, fully double and the colors intensified. The long stems of this strain make them excellent for cut flower purposes. May be used for greenhouse flowering in spring, or sown outdoors in fall for flowers in June and July.

<b>Blue Boy</b> —Excellent for forcing	<b>Pinkie</b> —Deep pink
	<b>Red Boy</b> —Deep red
	<b>Snowman</b> —Clear white

	Tr. Pkt.	Oz.	1/4 lb.	Lb.
Prices Above:	\$ .20	\$ .65	\$2.20	\$6.50

#### IMPERIALIS (Sweet Sultan)

<b>Brilliant Rose</b>	<b>Suaevolens (Yellow Sweet Sultan)</b> — Large bright yellow flowers, popular for cutting
<b>Deep Lavender</b>	
<b>Delicate Lilac</b>	

	Tr. Pkt.	Oz.
Prices Above:	\$ .25	\$1.00

#### AMERICANA

	Tr. Pkt.	Oz.
<b>Lilac</b> — Thistle-like blooms of rosy-lavender color. Splendid for cutting.....	\$ .20	\$ .75
<b>White</b> —White form of the above.....	.20	.75

### DUSTY MILLERS

#### (White-Leaved Types for Border Work)

	Tr. Pkt.	1/4 oz.	Oz.
<b>Candidissima</b> — (Lamb's Ear) Silvery grey foliage .....	\$ .60	\$1.25	\$4.00
<b>Gymnocarpa</b> —(Fern Leaf) Fine silvery foliage .....	.20	.35	1.00

### CINERARIA

**CREMER'S PRIZE STRAIN**

This strain has been greatly improved by the originator —has small foliage that is wilt-proof with tremendous heads of flowers of the brightest colors.

Tr. Pkt. \$1.50      1/32 oz. \$4.00      1/16 oz. \$7.50

Positively do not use soil that was previously used for Mums and especially so if your Mums were affected with Verticillium wilt or Seidewitz disease. CINERARIAS are attacked by this wilt which is a soil-borne fungus. It will cause the lower leaves to wilt and die and then gradually kill the entire plant. The only prevention for this trouble is to use new field soil from seed flats to finished pot. If you do use old chrysanthemum soil be sure to sterilize it. To be on the safe side, it is recommended to steam sterilize soil before using.

### Siter's Hybrids

Trade Mark

**They are a distinct improvement over the original Siter's Strain, and because they are Hybrids from original crosses, cannot be offered by anyone but the originator.**

This is an entirely new group of Cineraria Hybrids, blended for a perfect combination of colors, ranging from bright-eyed types through the finer pastel shades.

These new types carry large flower heads with medium, large individual flowers.

Seed for 1000 plants.....\$10.00      Seed for 500 plants.....\$5.00

### MULTIFLORA GRANDIFLORA NANA MIXED

This is an outstanding German Strain consisting of a beautiful color assortment of bright-eyed types.

Tr. Pkt. \$2.50      1/64 oz. \$5.50      1/32 oz. \$10.00

### CELOSIA PLUMOSA

	Tr. Pkt.	1/4 oz.	Oz.
<b>Fiery Feather</b> —(Dwarf) Similar to Flame of Fire, but with somewhat smaller plumes more freely produced in attractive pyramid... \$ .40	\$1.40	\$4.40	
<b>Flame of Fire</b> — Fine dwarf type fiery red ..... .50	1.50		
<b>Golden Feather</b> — Dwarf same as Fiery Feather, but with golden yellow plumes ..... .40	1.40	4.40	
<b>Golden Plume</b> —4 ft. golden yellow, for cutting ..... .30	.60	2.00	
<b>Pride of Castle Gould</b> —Mixed deep crimson to light yellow ..... .30	.95	3.30	
<b>Thompsonni Magnifica Mixed</b> — Excellent strain ..... .35	.70	2.25	
<b>Scarlet Plume</b> —4 ft. scarlet ..... .30	.70	2.25	

### CRISTATA

	Tr. Pkt.	1/4 oz.	Oz.
<b>Dwarf Golden Yellow</b> ..... \$ .30	\$ .80	\$2.50	
<b>Dwarf Empress</b> — Deep scarlet bronzy green foliage ..... .30	.80	2.50	
<b>Dwarf Firebrand</b> — Large scarlet crimson comb, uniform dwarf growing habit ..... \$ .30	\$ .80	\$2.50	
<b>Gilbert's Maple Gold</b> —Beautiful combs varying in color from light to dark pink tipped with Gold. Originators Tr. Pkt. (300 seeds)..... \$ .50			
<b>Toreador</b> — (New) Uniform strain with red combs and green leaves; 12 inches tall ..... \$1.00	\$2.20	\$4.00	

### CHRYSANTHEMUMS (ANNUAL)

Another group which is finding favor with florists for cut flower material. Chrysanthemums last remarkably well as a cut flower, but for best results keep them in water 24 hours before marketing. Sow in mid August to follow early Chrysanthemums. Responds very well to additional light.

**Merry Mixture**—(Gay Tricolors)..... Tr. Pkt. Oz. \$ .40 \$2.25

### CLARKIA (ELEGANS DOUBLE)

For spring flowering sow in early January and grow in shallow soil in flats or benches. Keep plants on the dry side as vigorous growth is not wanted.

**Mixed** ..... Tr. Pkt. Oz. \$ .20 \$1.25

**SEE PAGE 36 FOR LISTING OF VARIOUS GREENHOUSE SUPPLIES AND FERTILIZERS**

### CYCLAMEN

	Tr. Pkt.	Oz.
Fiesta—Brilliant gold striped scarlet.....	\$.35	\$2.25

# DELPHINIUM

### PACIFIC STRAIN VETTERLE & REINELT

This is the finest strain of Delphinium yet introduced. From our personal observations in the field, we find this has unquestionably proven to be the leader in Delphiniums of the better type. The flowers are immense in size, well set on strong, straight stems, do not shatter, and are 40 to 90% mildew resistant. July or August sowing and transplanting into the field during the fall will produce an early crop with large spikes. Delphiniums require a well-drained soil, neutral in reaction. January sowing will produce flowers during the summer.

#### ASTOLAT SERIES

The color variations in this series extend from pale blush through lilac pink to deep raspberry rose. Large brown, fawn and black bees lend interesting contrast. Tr. Pkt. \$2.25 1/8 oz. \$4.50 1/4 oz. \$8.00

#### BLACK KNIGHT

The individual florets, 2 to 3" in diameter, are Dark Purple, beautifully rounded form with heavy velvety texture. Very large well formed spikes.

#### BLUE BIRD SERIES

This series can be recommended as being the clearest medium blues with white bees. They carry well formed round flowers 2 1/4 inches in diameter on very long, graceful spikes.

#### BLUEJAY SERIES

Color striking. Clear medium to dark blue. Very intense and alive with contrasting bee.

#### CAMELIARD SERIES

A pure lavender self, with white bee, individual flowers are very round and flat. Excellent growing habits.

#### GALAHAD SERIES

Flowers Clear White, averaging three inches in diameter, pyramidal spikes, good branching habit, strong whippy stems with a high percentage of mildew resistance.

#### GUINEVERE SERIES

Light Pink Lavender self with white bee. Individual florets 2 1/2 to 3 inches in diameter. For cut flowers and show purposes. Mildew resistance—50 to 70%.

#### KING ARTHUR

Brilliant Royal Violet with large white bee. Individual florets 2 1/2 inches in diameter. Excellent for cut flowers. Mildew resistance from 80 to 90%.

#### LANCELOT SERIES

Clear Lilac self with white bee.

#### PERCIVAL SERIES

A companion to the Galahad Series. Large glistening white flowers with strongly contrasting black bee.

#### ROUND TABLE SERIES

This represents all the color combinations of the Knights and their Ladies which will eventually be introduced. Some three hundred different crosses were used to make up this group.

#### SUMMER SKIES SERIES

Clearest Light Blue with white bee. Individual florets 2 to 2 1/2 inches in diameter. Ideal for cut flower purposes. Mildew resistance—40 to 60%.

#### ALL COLORS MIXED

A blend containing all named colors mentioned above.

Prices for all of the above varieties except where noted:

Tr. Pkt. \$2.00      1/8 oz. \$3.00      1/4 oz. \$5.50      Oz. \$20.00

#### OTHER STRAINS

	Tr. Pkt.	Oz.
Blackmore—Langdon Strains .....	\$ .40	\$3.25
Cliveden Beauty (Improved Belladonna)—Selected strain. Turquoise blue.....	.40	3.25
Bellamosum—Dark blue. Belladonna habit of growth .....	.40	3.25
Gold Medal Hybrids—Large flowering. Tall.....	.30	1.75
Lamartine—Fairly deep bright marine blue. Excellent cut flower habit.....	.55	5.00
Wrexham Hybrids—Blending of light and dark shades.....	.55	6.00

#### CHINENSIS TALL FLORIST STRAINS

	Tr. Pkt.	Oz.
Alba—Pure white .....	\$ .25	\$1.50
Cambridge Blue—Azure blue .....	.40	2.75
Liberty—Dark blue .....	.25	1.50

## DAHLIAS

	Tr. Pkt.	Oz.
Unwin's Dwarf Ideal Bedding Mixed— Early flowering semi-double, 18 inches, in a wide range of colors.....	\$ .50	\$2.75
Coltness Hybrids—Dwarf single type, very free flowering, height 2 feet, choice mixed colors .....	.40	1.75

These are easy to raise from seed and are overlooked by many florists. Vast improvements have been made in these strains which come remarkably true to type and height. They are early flowering, blooming profusely the same year they are sown. For small pot plant sales in the spring, the seed should be started during January or February. To produce four-inch pot plants for Mother's Day, sow the seed in November.

### DIANTHUS HEDDEWIGII LACINATUS

	Tr. Pkt.	Oz.
<b>Gaiety</b> —Single flowers in a wide range of gay and brilliant colors. The deeply cut petals give the flowers a lacy appearance.....	\$ .35	\$2.50
<b>Double Gaiety</b> —Large fringed. Colors, white through pink, maroon and red. Good for garden display.....	.55	3.50
<b>Sweet Wivelsfield</b> (Single Mixed)—Brilliant colors. Free flowering.....	.25	1.25

### DIDISCUS

	Tr. Pkt.	Oz.
Responds to Additional Light.		
<b>Coerulea</b> —(Blue Laceflower).....	\$ .25	\$1.80

### DIMORPHOTECA (African Daisy)

	Tr. Pkt.	Oz.
<b>Aurantiaca</b> —Golden orange. Splendid for cutting; well adapted for forcing.....	\$ .25	\$1.25

<b>Scarlet O'Hara</b> — Rich dark wine red or deep rosy crimson.....	.25	1.25	
<b>Noctiflora</b> —(Moonflower)—Flowers at night.....	.20	.60	1.35

### LARKSPUR

Larkspur seed may be sown directly in the open in the fall and will flower the following spring. There are two distinctly different methods used and each has a number of successful supporters. The first method is to sow the seed fairly early in the season about August 15th to September 15th. The small Larkspur seedlings will be sufficiently large enough when cold weather sets in to winter over when given a light mulch. The other method employed is to sow the seed in rows in late October or early November so that it will not germinate until early the following spring. This crop of Larkspur will generally come in shortly after Delphinium Belladonna.

#### SUPREME STRAIN

A new strain of the popular Giant Imperial or Base Branching Type of Larkspur. Plants have an upright habit with longer spikes and fuller flowers.

- Dark Blue Supreme**—Rich violet purple
- Lilac Supreme**—Clear lilac
- Pink Supreme**—Clear rose pink, deeper in color than Pink King and Los Angeles Improved
- Rose Supreme**—Clear, pure deep rose
- Salmon Supreme**—A true shade of real salmon
- White Supreme**
- Supreme Mixture**

#### GIANT IMPERIAL OR BASE BRANCHING

- Blue Bell**—Azure blue
- Blue Spire**—Very deep violet blue
- Brilliant Rose (New)**—Deep salmon rose suffused brilliant carmine
- Carmine King**—Deep carmine rose
- Coral King**—Coral pink white shaded
- Dazzler**—Rich scarlet
- Exquisite Pink Improved**—Soft pink shaded salmon
- Gloria Improved**—Deep salmon rose
- Lilac King**—Rich lilac, full double closely spaced florets
- Lilac Spire**
- Los Angeles Improved**—Brilliant pink on salmon
- Miss California**—Deep rose on salmon
- Pink Perfection**—Beautiful shade of lively light salmon pink
- Pink King**—Salmon pink
- Rosalind**—Salmon pink
- Sweet Lavender**—Lavender color
- White King**—Glistening white, huge flowers
- White Spire**—Pure white, early
- Mixed**—Named colors

#### REGAL STRAIN

Long spikes of well placed florets distinguishes this new strain from all others. It keeps the desirable height and basal branching habits of the Giant Imperials.

# PETUNIAS

## •F1 HYBRIDS

Your customers will find the F1 HYBRID PETUNIAS listed below noteworthy for their clear strong colors and dwarf compact growth. Their vigor surpasses that found in line-bred varieties, and they remain attractive much longer in bed or pots than non-hybrids. Even as young plants their superiority is evident. They sell on sight. They bloom two weeks earlier.

### GRANDIFLORA SINGLE

	Tr. Pkt.	Oz.
Jewel—(Single)—Deep carmine .....	\$.50	\$3.00
Double — Large flowering mixed. Extra fine quality .....	.50	4.00
Single—Large flowering mixed .....	.25	2.75

#### RICINUS

##### (CASTOR BEANS)

	Oz.	¼ lb.	Lb.
Zanzibariensis Mixed—Very richly colored foliage. Enormous plant, on good soil growing 10' high .....	\$.20	\$.60	\$2.00

### Gloeckner

#### SPECIAL STRAIN MIXED

This is an exceptionally dwarf strain of phlox especially adapted to pot culture for spring sales. The mixture of colors are well balanced and bright with fine individual flower heads.

This strain has been well tried in many localities as we have had it for a number of years in very limited quantities.

Tr. Pkt.	\$1.00	¼ oz.	\$2.00	½ oz.	\$3.50	Oz.	\$6.00
----------	--------	-------	--------	-------	--------	-----	--------

#### SALPIGLOSSIS

##### Emperor or Superbissima

	Tr. Pkt.	Oz.
Finest Mixed .....	\$.25	\$1.00

#### SANVITALIA PROCUMBENS

Very dwarf yellow flowered edging plant sometimes called Creeping Miniature

Zinnia .....	\$.30	\$2.00
--------------	-------	--------

#### SAPONARIA VACCARIA

January 15th sowing in shallow flats will flower for Mother's Day

	Tr. Pkt.	Oz.
Rosea—Used in same manner as "Baby's Breath"; feathery pink flowers .....	\$.25	\$1.00

**FOR YOUR FOLIAGE PLANT REQUIREMENTS SEE YOUR GLOECKNER REPRESENTATIVE.**

# PRIMULA

Seed of *Primula malacoides* sown in June will make good flowering plants for January. September-sown seed will produce good plants for early spring; while later sowings can be grown into small plants for combinations. Little or no fertilizer is recommended during the early growth stages.

## MALACOIDES

**Springtime**—An attractive Salmon-pink, that does not fade with age. Flower stems are strong and support a profusion of good-sized blooms. Unlike many varieties of *Malacoides*, the foliage has good texture and is fairly resistant to rot..... **\$2.00**

**Flamingo**—(New) clear pink flowers, strong, compact plants ..... **2.50**

## GIANT MALACOIDES

**Enchantress**—Soft salmon ..... **\$1.50**  
**Snowflake**—Pure white ..... **1.00**  
**Mixed** ..... **1.00**

## SCABIOSA (OLD MAID'S PINCUSHION)

### LARGE FLOWERED TALL DOUBLE

	Tr. Pkt.	Oz.
<b>Ageratum Blue</b> —Mid blue .....	<b>\$ .30</b>	<b>\$2.50</b>

BRANCHING STOCKS

### STOCKS

(CONTINUED FROM PAGE 23)

#### BRANCHING STOCKS

#### GIANTS OF CALIFORNIA

The Giants of California can also be grown similarly to the non-branching type. When grown this way, the side shoots should be removed. For the retail grower the branching types are gaining popularity. These should be planted 8 x 8 inches and topped when 6 inches tall to produce side shoots of sufficient length.

#### TRYSOMIC GIANT IMPERIAL (Branching)

Years of research went into producing Trysomic Stock that produces 85 per cent or more double-flowered plants when sown from seed. In addition to this excellent trait, when the seedlings reach the four-leaf stage you can pick out the small, weak ones that will develop into singles and thus insure yourself close to 100 per cent double-flowering plants.

- |                           |                      |

<b>Prices Above:</b>	<b>\$1.75</b>	<b>\$2.75</b>	<b>\$5.00</b>	<b>\$18.00</b>

Stocks are very satisfactory for Winter and Spring flowering. Sowing the seed in August and benching in October, the first flowers may be cut before Christmas if additional light (40-60 watt lamps spaced 5 feet) is used. Without this aid, the crop will come into flower in January. Continuity of bloom may be obtained by successive sowings. This non-branching type, which has come into general use, should be planted 3 inches in the row and 6 inches between rows, producing a single stem. The branching types should be planted 8 x 8 inches and topped when 6 inches tall to produce side shoots of sufficient length.

Flowering of stocks only occurs when the temperatures are below 60 degrees for the greater part of the night. To secure the greatest percentage of doubling, the largest and most vigorous plants should be selected.

#### SOWING DATES OF COLUMN OR NON-BRANCHING STOCKS FOR THE VARIOUS BLOOMING DATES

Time of sowing	Flowering	Time of sowing	Flowering
August 1.....	January	December 1.....	May
September 1.....	February	January 1.....	Mother's Day
October 1.....	March	February 1.....	June
November 1.....	April	February 15.....	June 15

### SWEET PEAS

TURN TO PAGE 26  
FOR SUMMER-FLOWERING  
VARIETIES

#### EARLY WINTER FLOWERING

##### PINK

**Annie Laurie**—Pure rose pink  
**Ball Rose Improved**—Cerise pink  
**Jeanne Mamitsch**—Cerise pink  
**Josie** — Brilliant rose pink, long stems  
**Laddie Improved**—Long stemmed giant rose, pink  
**Majestic Rose**—Deep brilliant rose pink  
**Rose Queen Improved**—Rose pink  
**Shirley Temple** — Delightful soft rose pink

##### BLUE

**Blue Bonnet**—Best clear blue  
**Mrs. Herbert Hoover** — Clear blue  
**Princess Blue** — Rich belladonna blue

##### ORANGE

**Ball Orange Improved**—Clear deep orange  
**Sequoia** — Golden salmon cerise, large flowers  
**Treasure Island**—Sparkling shades of golden orange  
**Valencia**—Sunproof orange

##### LAVENDER

**Fragrance**—Clear lavender  
**Harmony**—Clear lavender  
**Lavanda**—Clear lavender  
**Memory**—Clear rosy lavender  
**Triumph** — Lilac mauve, long stemmed  
**Twilight** — Lavender, with larger flowers than Harmony, which is nearest this color; vigorous grower

### ZVOLANEK'S

#### MULTIFLOWERED CLASS

A new, free-flowering class of Sweet Pea which produces many stems with five and six flowers. Stems are exceptionally long as well, making this a profitable market variety.

**Lavender** — Giant size blooms on exceedingly long stems.  
**Orange Cerise** — Characterized by its vivid color and large flowers.  
**Rose** — Vigorous grower with large, medium-rose flowers.  
**Salmon Pink** — Rose-pink flowers with tinge of salmon. Four and five flowers to the stems which are long but not so strong as the other varieties in the class.

•**Whirlwind**—Considered the best of the group. Five or six flowers of a light rose are borne on strong 14-inch stems. Vigorous grower.

**White** — Pure white flowers, many fives, are carried on strong stems. Good for wedding work.

	1/2 oz.	Oz.	4 oz.	Lb.
Prices:	\$1.75	\$3.00	\$10.00	\$35.00

#### SPRING FLOWERING CUTHBERTSON STRAIN

This class of Sweet Peas replaces Spring-Flowering of types previously offered. Indoors, seed sown November 1st, will bloom in April. The Cuthbertson Class is recommended for sowing after November 1. It needs strong spring sun to bloom.

It is exceptionally successful outdoors, in the North, flowering two weeks later than the Early Flowering, and two to three weeks earlier than the Summer Flowering.

**Billy**—Bright cerise rose on salmon  
**Carol**—Strong growing clear pink  
**Coline**—Vigorous sunproof scarlet  
**Danny**—Navy blue  
**Doris**—Deep cherry rose  
**Evelyn**—Salmon cream pink  
**Frank G.** — Strong growing lavender

**Hazel**—Light blue  
**Janet**—A pure black seeded white  
**Jessie** — Wavy flowers of clear satin mauve  
**Lois** — Rose pink on white background  
**Tommy**—Clear medium blue

<b>Hybrid Big Boy</b> — Giant hybrid. Perfectly smooth, firm, deep globe. Scarlet red variety with thick walled fruits. Plants large and heavy bearing. Produces continuously until frost. ⅛ oz. \$6.00; ¼ oz. \$10.00; ½ oz. \$18.00	35.00	110.00		<b>Valiant</b> — early red .....	.90	3.00	9.00

SORRY  
CROP FAILURE

**STOKESCROSS No. 2:** Maturing 70 days, average size of fruit 4.5 ounces. This large size, early maturing hybrid tomato is both a market and a canner type. A very heavy producer with uniformly large fruit.

**STOKESCROSS No. 5:** Maturing 75 days, average size of fruit 4.7 ounces. This is perhaps the strongest hybrid yet produced. It is recommended for market or for processing, and is an excellent producer. This new cross for 1953 is a magnificent tomato which carries enthusiastic endorsement as one of the finest hybrids ever produced.
